If any box or table in this form doesn't give you enough space, continue your answer on a separate signed and initialled page headed with the relevant question number (e.g. "Annexure to 3.10.8"), then simply write "See Annexure 3.10.8" in the space provided.

1. Organisation

Full name of organisation:

2. Aims and Objectives of Organisation

Describe the core aims and objectives of the organisation:

3. Project or Programme Details

3.1 Project or Programme Title:

Project or Programme Description – what is the proposed project's focus, purpose or level of intervention? (e.g. for a crèche/ECD, this would be child care and early childhood development)

3.2 Problem and Intervention Statement – describe the problem the organisation is trying to solve through this project that will be funded by the City, and how this problem will be solved.

3.3 Location/area – where will this project be carried out? What is the target area?**3.4 Beneficiaries – which community (target community or group) will benefit from this project?****3.5 What is the total number of beneficiaries who will be targeted?****3.6 Expenditure Budget (Whole Project) – what is the anticipated expenditure on this specific project or programme, and what will the money be spent on?**

Grants-in-Aid funds received from the City cannot be used to fund salaries and wages, municipal service accounts, telephone accounts, general administration expenses, etc. Any Grants-in-Aid funding your organisation receives from the City must only be used to fund expenditure directly related to the approved project or programme, ensuring that the target beneficiaries receive the full benefit of the Grants-in-Aid – which will not happen if funds are misused or used to fund the types of expenditure mentioned. Your organisation must be properly registered, established and viable, and must provide the City with copies of your audited Annual Financial Statements where Grants-in-Aid from the City exceed R100 000, your latest independently reviewed financial statements for applications between R50 001 and R100 000, or an approved Income and Expenditure statement where the Grants-in-Aid applied for is less than R50 000. The minimum amount of Grants-in-Aid funding that may be applied for is R15 000 (Fifteen Thousand Rand). The project must commence within 2 months of receiving funding and be completed within 6 months. More than 8 lines? See the annexure note on page 1.

3.10. GIA-Funded Portion (NEW)

Because the City typically funds only a portion of the total project budget (Section 3.6), this section describes – in specific, measurable, time-bound terms – exactly what the GIA amount pays for. THE DELIVERABLES RECORDED IN THIS SECTION, NOT THE WHOLE-PROJECT BUDGET IN 3.6, ARE WHAT MUST BE COMPLETED FOR THE PROJECT TO BE CONSIDERED COMPLETE FOR GIA PURPOSES. Council’s approval of “funds may only be used for” (see closing page) is drawn directly from the cost breakdowns in 3.10.8.

3.10.1 Intended length of the GIA-funded portion – how long will the GIA-funded part of this project run?
This may not exceed 6 months from the date funding is received, even if the overall project runs longer (see Section 3.6).

From (ddmmyy): To (ddmmyy): Total months:

3.10.2 GIA-funded outputs – what tangible, measurable outputs will the GIA-funded portion specifically produce? (Outputs are things you can point to and count.)

3.10.3 GIA-funded outcome – what do you hope to achieve as a result of the GIA-funded portion specifically?

3.10.4 Area of benefit – geographical location(s) the beneficiaries of the GIA-funded portion come from.

3.10.5 Area of implementation – geographical location(s) where the GIA-funded portion will be carried out.

3.10.6 Target group description – the type of group targeted by the GIA-funded portion (e.g. women, youth, disabled, children, etc.)

3.10.7 Target number for the GIA-funded portion:

Beneficiary type	Number	Description
Direct beneficiaries		
Indirect beneficiaries		

Description example: “200 children participating in the workshop”.

3.10.8 Deliverables and GIA Budget Breakdown – list what the GIA-funded portion will actually produce, and give the specific cost breakdown for each one.

This page covers TWO deliverables. If you have more than two, duplicate this page for every additional pair and number them consecutively (Deliverable 1 and 2 on this page, 3 and 4 on the next copy, and so on). Add up the Deliverable Total from every page – that combined sum must equal the City (GIA) column total in Section 3.6. Deliverable 1 below shows a completed example; overwrite it with your own first deliverable, or clear it if it doesn't apply.
