

30 June 2026

**TO: ALL USERS OF THE CITY OF CAPE TOWN'S WASTE SERVICES DISPOSAL FACILITIES
DISPOSAL TARIFFS* FOR 1 JULY 2026 TO 30 JUNE 2027**

1. General Waste

- Disposal coupons for general waste are obtainable at municipal cash offices, as specified below.
- Disposal tariff per one metric ton general waste: R758.35 (excl. vat) or R872.10 (incl. vat).
- Disposal tariff per quarter metric ton general waste: R189.57 (excl. vat) or R218.00 (incl. vat).

2. Clean builders' rubble

- Disposal coupons for clean builders' rubble are obtainable at municipal cash offices as specified below.
- The City may consider waiving the tariff in the event that clean builders' rubble is required at one or all landfill sites, as part of covering material or for rehabilitation, provided it is disposed of directly at the facility.
- Disposal tariff per metric ton of clean builders' rubble: R31.30 (excl. vat) or R36.00 (incl. vat)

3. Special Waste

Note: Special waste includes hazardous waste that falls into the DWAF Minimum Requirements (1998), moderate or low hazard rating categories (3 or 4 respectively), delivered to the City of Cape Town's hazardous landfill site at Vissershok.

- Special waste disposal is subject to obtaining a special waste permit from the Disposal Branch Head Office before presenting waste for disposal. The special waste permit application process can be obtained by emailing a request to disposal.permit@capetown.gov.za
- Permits are obtainable at 4 Glen Roy Road, Pinelands.
- Disposal tariff per one metric ton of special waste: R1,004.96 (excl. vat) or R1,155.70 (incl. vat).
- Disposal tariff per quarter metric ton of special waste: R251.30 (excl. vat) or R289.00 (incl. vat).
- All special waste is subject to an annual acceptance and testing and must be classified and assessed in terms of R634 and R635 of NEM:WA waste disposal regulations. Compliance with R636 of NEM:WA will be ensured.
- Proof of non-infectious waste has to be submitted by the generator for all animal carcasses and if not compliant it cannot be accepted.

4. Waste generated outside the City of Cape Town's municipal boundary (origin must be declared at the time of permit application)

Note: While the City reserves the right of entry to its waste disposal facilities, it may on receipt of a well-motivated written request favourably consider waiving the surcharge (in full or in part) in respect of waste emanating from outside the municipal boundary, subject to a formal agreement that is reduced to writing.

- Disposal tariff per one metric ton general waste: R985.57 (excl. vat) or R1,133.40 (incl. vat)
- Disposal tariff per quarter metric ton general waste: R246.26 (excl. vat) or R283.20 (incl. vat)
- Disposal tariff per one metric ton of special waste: R1,108.43 (excl. vat) or R1,274.70 (incl. vat)
- Disposal tariff per quarter metric ton of special waste: R277.22 (excl. vat) or R318.80 (incl. vat)

5. Clean mixed recyclables:

- Clean mixed recyclables will be accepted free of charge at the Kraaifontein materials recovery facility and all drop-off facilities

Tariffs are based on actual mass as measured by the weighbridge at the facility. If the weighbridge is not operational, the carrying capacity of the vehicle will be used.

DEFINITIONS

- **Clean Garden Waste** means organic waste which emanates from gardening or landscaping activities and includes but is not limited to grass cuttings, leaves and branches, and any biodegradable material, but excludes waste products of animal origin. The waste must be transported by car, trailer or LDV with a carrying capacity not exceeding 1,5 tons and will be accepted free of charge at drop offs. Loads per day are limited to three per user and the size of branches is limited to 1,2m in length and 60mm in cross section. Larger loads will attract the general waste disposal tariff and coupons are needed for disposal.
- **Clean Builders' Rubble, Sand & Soils** means waste consisting of broken bricks, sand, stone, cement, plaster and similar inert materials, but excluding paper, plastic, asbestos cement waste, wood, board, glass and metal. However, if builders' rubble is contaminated by more than 10% then it will be regarded as mixed general waste, which will be charged at the full General Waste Disposal Tariff. Smaller loads transported by car, trailer or LDV with a carrying capacity not exceeding 1,5 ton will be accepted free of charge. The daily limit for small loads is three per user. Larger loads must be disposed of at landfill sites
- **Special Waste** includes solid waste, requiring special handling, e.g. all low hazard wastes for example off spec food, non-infectious animal carcasses, approved treated sanitary waste, etc. Adherence to our Waste Management Licence requires that all special waste types obtain prior approval for acceptance from the City's Scientific Services Branch. A special waste application process is in place and applied. The generator may be requested to submit a full waste classification done by a competent scientist to confirm permissible waste for disposal.
- **Residential garage waste:** Waste generated from household activities at residential properties that includes household and garage waste but excludes kitchen, garden, building or demolition and hazardous waste. The waste must be transported by car, trailer or LDV with a carrying capacity not exceeding 1,5 ton and will be accepted free of charge, at drop off sites.
- **Household Hazardous Waste** is the collective name for common household chemicals and substances containing toxic ingredients that are no longer useful to the householder. Examples are compact fluorescent tubes, used oils, asbestos cement heaters and flower pots, old paints, old pesticides, batteries, pool chemicals, etc. Limited to 50kg per user per day delivered to either ARTS or BRTS HHW drop off. It does not include health care risk waste, explosives, etc.

Disposal coupons available from the following Municipal Cash Offices:

Athlone	Cape Town Civic	Kraaifontein	Parow	Strand Civic
Bellville	Durbanville	Kuils River	Plumstead	Table Bay Mall
